

	Quality Policy Statement			Page 1 of 1
	Doc. No	KE-QA-POL-001	Rev.	

Khazar Engineering has been established to providing Engineering, Procurement and Construction Management (EPCm), Laser Survey, Laser Scanning and Dimensional Control services primarily in the oil & gas sector.

We are committed to continually improve how we deliver our services to our customers through the application of our consistent methodology and disciplined processes we endeavour to fulfil the requirements of our customers, and meet industry standards.

The Management Team shall set and review the Quality Objectives each year for the core aspects of our company during the management review meetings, and these objectives shall be monitored and evaluated.

The Management Team of Khazar Engineering is fully committed to continually improving the effectiveness of our IMS and the experience of our customers through the training of our employees, continued analysis of customer feedback, auditing of our performance, and ensuring the suitability of our IMS so that we can deliver upon the requirements of our customers. This can only be achieved through the continued support of our employees and their compliance at all times with our processes and procedures.

In support of this policy statement, Khazar Engineering shall ensure that all local regulatory and legal requirements are met.
